SKYAPP Point of Sale System

SKYAPP POS is a modern point-of-sale system that makes it simple to sell to your customers, and keep them coming back to your store. It works on standard POS hardware, PC, tablets and connects to all the latest hardware - barcode scanners, receipt printers, cash drawers. It may even work with the hardware you already own!

- Modern POS with option for TabletPOS for mobility and simplicity of operations.
- No investment and hassle of physical data rooms, servers, racks, data backups and maintenance.
- Omni-channel inventory management across retail outlets and virtual eShops (requires backend).
- Loyalty Membership Points Award and Redemption.
- Services Package selling and tracking for fixed package and credit package.
- Time Clock for employee attendance.
- Salesperson/Therapist/Stylist tagging for commission computation
- Access your crucial store operations, sales data and inventory management anytime, anywhere (requires backend).

SKYAPP

Being able to work under both online and offline modes, SKYAPP POS helps you to keep ringing up sales even when your internet connection lets you down. Your sales will automatically update to our servers the next time you go online. This reduces cashier errors and prevents settlement discrepancies.

The comprehensive and practical operations help to streamline your retail checkout process for your employees and customers.

POS Software features include:

- Δ Sales, void and refund transactions
- Δ Credit / Packages Sales and Consumption
- Δ Loyalty membership
- Δ Salespersons/Therapists/Stylists
- Δ Time clock
- Δ Line and Total discounts
- Δ Promotions
- Δ Multi Payment modes
- Δ POS receipts
- Δ Barcode label printing
- Δ Built for touch screen terminals and supports major POS peripherals including barcode scanners, thermal printers
- Δ Integrates with SKYAPP Inventory Management to maintain inventory data and quantities across all aspects of your business
- Δ Data backup over the Cloud to keep data safe (subscriptions rates apply)
- Δ Cloud access feature lets bosses and staff access remotely.
