Secure CIT process

SKYAPP CashOffice software enables retailers to ensure that the cash is transported only when absolutely necessary - reducing the associated risks and costs. With tight control and full traceability of deposits, recycling and CIT collections, the solution facilitates the efficient movement of cash across the business. It also acts as a service point for cashiers to control the process of refilling or clearing traditional cash drawers.

Closed Cash Cycle (Cash-In-Transit) features include:

Δ   Reduces effort of cash sorting and counting by CIT

Δ   Closed Cash Cycle

Δ   Cash-In-Transit can be engaged to escort the cassettes and coins to the bank
